### CRIME AND ITS PUNISHMENT.

Scripture tells us that the way of the transgressor is hard, and history, both ancient and modern, everywhere testifies to the truth of the doctrine that sin will not go unpunished, whether the sinner be an individual, a community, or a nation. Individual sins are not always punished, in whole or in part in this life; national sins invariably are. If repentance does not precede punishment it is well for that people who frankly confess their sins, acknowledge the justness of their punishment, and by a well directed reformation, "woo the Angel of Virtue into the future." The political history of Victoria (V. I.) has not been altogether an uninteresting study to the political economist, and adds another item to the long catalogue of evidence as to the truth of the proposition with which we have started out. Without pretending to the possession of any extraordinary penetration, a glance over the files of this journal will demonstrate with what striking accuracy and vividness we have portrayed the political transgressions of Victorians and their inevitable consequences. We have no intention of inflicting upon our readers a recapitulation of circumstances and events which must be fresh in the public mind; nor would we wish to be understood as gloating over the fall of what may be considered in some respects as an enemy. Yet we may be permitted to point to the pitiful figure which our neighbors are cutting just now, as a striking illustration of sin and its punishment. It is scarcely surprising that the Legislative Assembly of Vancouver Island should seek to give form to their very natural dislike of Governor Kennedy. Up till the beginning of 1864 they were governed by a man whose greatest fault, perhaps, was that he governed but too well for Victoria—that every other interest was sunk in the one great, all-absorbing desire and determination to build up that town, and at the same time, build up his own private fortune. But, although the Governor of the time was found willing to sacrifice the whole of this Colony, and the balance of the neighboring one in order that the value of his own property and that of his connections might be enhanced, there were those restless spirits and political demagogues who, doubtless assisted by a limited number of honest men who were opposed upon higher and more patriotic grounds to the policy of the autocratic Douglas, could not be content under any system; and who would be satisfied with nothing short of immediate dismissal. They carried their point, whether by fair or foul means, it matters not now. Is it surprising that these same bankum-venting demagogues should have received their new Governor with all that fulsome adulation which is ever the characteristic of that genus, and that, after the nine days' wonder is past, they should desire another change. We are not going to enter into the merits of the quarrel, or rather series of quarrels which have arisen between Governor Kennedy and the Assembly, yet let the people's representatives. We may say, in a general way, however, that with a different set of men to deal with, the Governor would not, perhaps, have been justified in the rather brusque and high-handed policy he has adopted towards persons which form that Assembly, we consider his conduct not only justifiable, but statesmanlike. As for the vote of want of confidence it is simply absurd to suppose that it will have the weight of a hair in the Imperial scale. British statesmen are far too shrewd to be imposed upon by the miserable chicanery of Victoria demagogues, and with the whole history of their wretched maneuvering on record in the Colonial office, the attempt to bring Governor Kennedy under the censure of the Secretary of State, and the still more ridiculous and transparent

effort for the reinstatement of Sir James Douglas, if indeed they are noticed at all, can only have the effect of sinking Victoria politicians still lower in Imperial estimation, if indeed there be a lower place for them to occupy.

NEW ADVERTISEMENTS THIS DAY.

Coffee, Flour, etc.—Henry Eichoff, Telegraph House, Rody.  
School for Boys—Oblate Fathers, St. Ann School for Young Ladies.

The British Columbian.

WEDNESDAY, AUGUST 1, 1866.

THE ATLANTIC TELEGRAPH.  
GREAT TRIUMPH OF SCIENCE.

Although the first successful transmission of an electric discharge through water dates as early as 1747, having been accomplished by Dr. Watson, between Westminster and Lambeth, yet the first submarine telegraph of any considerable length was that established during the Crimean war, in 1855, between Verna and Balaklava, a distance of 310 miles. In 1854 Whitehouse commenced his researches on the possibility of an Atlantic telegraph, and 2500 miles of cable were prepared, and stored in equal quantities on board the British screw steamer Agamemnon, and the American man-of-war Niagara. After some mishaps and breakages these vessels reached the point of junction on the 28th of July, and on the following day they parted, the Agamemnon steering for Valentia, and the Niagara for Trinity Bay, Newfoundland. Both vessels arrived safely at their respective ports, and on the 17th Cyrus W. Field announced the successful completion of the great enterprise. The first public dispatch, a message from our own beloved Queen to Buchanan, then President of the great American Republic, was received at Washington on the 17th of August, and the cable continued effective until the 1st of September, when the signals became unintelligible and the whole thing was pronounced a failure. Though the disappointment was great and the loss enormous, scientific enthusiasm and enterprise rose above both, and an improved cable was announced in June of last year, and stowed away in the hold of the Great Eastern by the middle of the following month. It was towards the close of July, 1865, when that Leviathan steamer set out upon her important work of submerging the Atlantic cable. The particulars of that eventful voyage are still fresh in the minds of our readers, and need not be recapitulated now. The cable parted 1200 miles from Valentia, and was finally abandoned. Here again science and enterprise soared above disappointment and the work of manufacturing a still more perfect cable was diligently undertaken. The result is announced in our telegraphic columns to-day. The Great Eastern, having the cable on board, arrived off Valentia on the 13th of July, 1866, and commenced paying out, and on the 28th of the same month she reached Heart's Content, having successfully submerged the entire cable, and on the same day dispatches were received from Europe. Thus Cyrus W. Field, to whom the success of the enterprise is largely due, has the satisfaction of announcing, after two failures, the union of the Old and the New Worlds by one of the strongest ties which can bind civilized nations. To use words written upon a similar occasion eight years ago,

"This old Old Ocean feels the thrill  
Through his time-tossed bosom now,  
And yields to man's victorious will,  
The crown long placed on Neptune's brow."

And we may well add, in the language of Scripture, "Glory to God in the highest, on earth peace, and good-will to man." It is not easy to realize the fact that we are placed in instantaneous communication with the Old World—that for purposes of communication London is to us as New York, and New York as San Francisco; nor is it easy fully to estimate the importance of this the greatest and most wonderful triumph of science. Let us hope that the present medium of communication between the old and the new worlds will be more enduring than that established in 1858. May we not take it as a good omen that the first public message transmitted over the cable is the announcement of peace in Europe? We shall doubtless shortly be in possession of complimentary dispatches certain to be exchanged between the great powers of the two continents. Elsewhere will be found dispatches from Europe as late as Saturday; and that we have not been able to place still later news before our readers is doubtless owing to the fact that the line is occupied by a press of private business.

GOLD-MINING ON LILLOOET RIVER.

The very last thing we would desire to do is to be found in any way instrumental in "pulling" loggish diggings, or in any measure assisting in deceiving the public for private benefit, chiefly because we feel convinced that these false excitations about new diggings, but too common in all gold mining countries, are most pernicious in many ways. In giving some prominence to the diggings to which the subjoined correspondence alludes, we apprehend we are in no danger of falling into this error, first, because there is no reason at all for doubting that the information conveyed in Mr. White's letter is substantially correct; and, secondly, because the class of diggings to which it alludes are in no danger of doing much mischief in that way. Indeed, it is matter for regret that it is so difficult to get people sufficiently excited about what are commonly called "poor man's diggings," to work them at all. But, however unattractive three dollar diggings may be, it should be recollected that when they are found in a locality so easy of access, and where food and appliances will only be a shade dearer than in the capital, they are not to be despised. It should also be borne in mind that ground which will pay \$3 a day with the rocker, ought to yield at least \$15 a day to the hand by the more effective mode of sluicing. If the ground alluded to should prove to be as extensive as Mr. White appears to apprehend, there can be no doubt that it will afford profitable employment to no inconsiderable number of miners, inasmuch as the greatest facilities for sluice-mining exist in that locality. Be this as it may, the matter is in a fair way of being subjected to a practical test, as we understand quite a number of would-be miners are prepared to start from here by the next steamer to try their luck in this new gold field. The following is a copy of the letter alluded to:

Letter from Constable White to the Hon. C. Brew.

Sir,—I have the honor to forward for the information of his Honor the Officer Administering the Government the following report:

Having heard that some parties were engaged in mining at the 24 mile post, on the Douglas Portage, I proceeded to the spot on foot. There, on the 26th instant, I found two men busily at work with rockers. From them I learned that they had been employed in this place nearly two weeks, the average yield of gold being from \$2.50 to \$3 per diem. Not trusting to my own skill I took an experienced Chinaman with me for the purpose of obtaining a sample from this ground. Accordingly I have the satisfaction of enclosing the result from two shovelfuls of dirt dug and washed in my presence. I think it right to mention that the swiftness of the water could not fail somewhat to diminish the amount of gold that might otherwise have been obtained.

The site of these operations is a bench on the eastern side of the Lillooet River, extending about a mile and a half in length (following the course of the river) and varying in breadth from three to several hundred yards, as well as I could conjecture. The river is at present so high that it can only be worked about a foot or so below high water mark. Under these circumstances it is impossible to know what depth of pay-dirt there may be beneath the water level. The bank, which consists of compact gravel, cement and boulders, shows a front of over six feet perpendicularly. It is from this bank or bench that the already mentioned pay has been obtained.

Should the present expectations be realized in respect to the continuation of this ratio of yield as the bank is further prospected, this discovery may assume no slight importance. At any rate, I trust I am justified in bringing the present matter under your consideration. In conclusion I have only to add that from prospects I obtained between the 24 and 20 mile Houses, I entertain the hope that these diggings may be found to be more extensive than the mere area above described.

(Signed) RICHARD WHITE,  
Chief Constable.

Douglas, B. C., July 27, 1866.

\* The sample is of fine, bright scale gold, and about 33 cents in value.

New Westminster, July 17, 1866. — 1st 11c

CHARTRES BREW, the commissioner authorized to act under a petition for Adjudication of Bankruptcy, filed on the 18th day of June, A. D. 1866, against Edwin T. Dodge and George C. Bent, of Port Douglas and elsewhere in British Columbia, packers, traders and carriers, will sit on the 9th ninth day of August next, at twelve o'clock, noon precisely, at the County Court House, New Westminster, British Columbia, to take the last examination of the said Bankrupts, when and where they are required to surrender themselves and make a full discovery and disclosure of their estate and effects and finish their examination, and the creditors who have not already proved their debts are to come prepared to prove the same.

DRAKE & JACKSON,

Solicitors to Trade Assignees.

Dated 17th July, 1866. — 1st 11c

A CARD.

THE Board of Management of the Royal Columbian Hospital, have much pleasure in acknowledging the receipt of \$25 from Capt. Fleming, being the balance of funds collected to defray the expense of celebrating the Fourth of July in this city!

W. J. ARMSTRONG,

President of Board.

New Westminster, July 12, 1866. — 1st 14

A CARD.

THE Committee of Management beg to tender, on behalf of the Volunteer Corps and the general public, their sincere thanks to Capt. Fleming, of the steamer Lillooet, for his great readiness in placing his fine steamer at the disposal of the Corps gratis for the picnic to Langley.

H. P. P. CREASE,

W. J. ARMSTRONG,

A. R. HOWSE,

T. LADNER,

J. T. SCOTT,

W. FISHER.

New Westminster, July 12, 1866. — 1st 14

Information Wanted

REGARDING JOSEPH TAYLOR, formerly of Edinburgh, son of the deceased Mr. Joseph Taylor, merchant, Tanfield, Edinburgh. The said Joseph Taylor, if alive, is now about 35 years of age. When last heard of, which was in the month of June, 1862, he was in New Zealand, and was said to be about proceeding to the diggings in British Columbia, since which time he has not been heard of. Any information regarding him, if living, or in the event of his decease, of the time and place of his death, and addressed to Mrs. Alison Smith, Hope Cottage, Barney Street, Richmond, Melbourne, Victoria, or to Andrew Grierson, W. S., 15 St. Andrew's Square, Edinburgh, North Britain, will be rewarded, Edinburgh, 30th April, 1866. — 1st 14

Important to Business Men in  
Victoria, California, Portland,  
and Places on the Sound.

This Journal is the oldest newspaper published in  
British Columbia, and is read by every business man from  
New Westminster to the Rocky Mountains, and is un-  
rivalled as an advertising medium for this Colony.  
David Grayson, in Victoria, and E. P. Stewart, in  
San Francisco, are our authorized Agents.

## The British Columbian.

WEDNESDAY, AUG. 1, 1886.

LATER FROM THE INTERIOR.

The steamer Onward, Capt. Irving, ar-  
rived from Yale yesterday, bringing later  
news, with files of the *Corbin* and *Sentinel*  
of the 23d ult., and \$260,000 in treasure  
in charge of Messrs. Orman and Law-  
son, being the property of the Banks  
of British Columbia and British  
North America, \$159,000 of which be-  
longed to the latter institution. The *Sentinel*  
expressed surprise at the fact that the  
above Banks, \$159,000 in gold dust belong-  
ing to the above Banks. The *Sentinel* notices  
the return of the deputation, Messrs.  
Laumeister and McLaren, publishes His  
Excellency's reply, and appears to ac-  
cept it as satisfactory. It will be seen  
by reference to our Cariboo dispatch that  
the recommendation to elect a Mining  
Board is being promptly responded to by  
the miners, and it is earnestly to be  
hoped that they will make a judicious  
selection.

We have the *Tribune* of Monday.  
The news is unimportant. His Excel-  
lency the Administrator of the Govern-  
ment met with a good reception at  
Hope and Yale. The inhabitants of the  
latter town waited on His Excellency  
with an address, in the course of which  
they set forth their wants. A suit-  
able reply was returned in which  
they were recommended to apply for a  
municipal charter. It was also intimated  
that the navigation of the Fraser, at the  
rocks known as "The Sisters" would be  
immediately improved.

The Road Tolls collected at Yale  
amounted to \$159,000 for the week.

NEW WESTMINSTER VOLUNTEERS.—The  
following appeared in the *Government  
Gazette* of Saturday:

COLONIAL SECRETARY'S OFFICE,  
27th July 1886.

The Officer Administering the Govern-  
ment, has been pleased to make the fol-  
lowing appointments:

*Seymour Artillery Co. (Volunteers):*  
G. W. Holmes, Esq., to be Captain.  
Dated 26th July, 1886.

D. McCulloch, Esq., to be Lieutenant.  
Dated 26th July, 1886.

H. P. C. Evans, Esq., to be Lieuten-  
ant. Dated 26th July, 1886.

W. S. Black, Esq., to be Surgeon.  
Dated 5th July, 1886.

*Home Guards (Volunteers):* A. Calder,  
Esq., to be Captain. Dated 26th July,  
1886.

T. McKim, Esq., to be Lieuten-  
ant. Dated 5th July, 1886.

J. Robinson, Esq., to be Lieutenant.  
Dated 5th July, 1886.

J. G. McLean, Esq., to be Ensign.  
Dated 5th July, 1886.

By Command,  
H. M. BALL,  
Acting Colonial Secretary.

NEW BOATS FOR THE UPPER COLUMBIA.

From parties just down, we learn that it  
is the intention of Messrs. Abrams,  
Humason and others, to build two more  
steamboats for the navigation of Clark's  
Fork. The first two will run from Cab-  
inet Portage to the falls at Thompson's  
Prairie, and the other from the head of  
the last named portage to the Jocko  
Falls, which will make the entire naviga-  
tion of lake and river, two hundred miles  
or less. The Jocko Falls are said to be  
within sixty miles of the Elk Creek dig-  
gings, which are represented as being  
above the average of discoveries in that  
Territory. This route avoids all moun-  
tains, and is open in the spring about as  
soon as the Columbia, and can be com-  
fortably travelled until December.

It is reported that several men are en-  
gaged in mining on Thompson's Prairie,  
but what the result of their labors is, we  
have been unable to learn. The country  
from Pen de Oeille up is supposed to be  
gold-bearing, and it is to be hoped that  
future prospectors will find such encour-  
agement as shall tempt them to settle  
down and develop that region of coun-  
try.—*Portland Herald.*

DR. H. Tezo, formerly connected  
with the Hudson Bay Company, at Van-  
couver, is now in town gathering all the  
information that will bear upon the  
claims of that company to the property  
in and around the city of Vancouver.  
We believe that the Hudson Bay Co.'s  
claim to any portion of the soil of Wash-  
ington Territory is an outrage upon the  
American claimants, they having gained  
their foothold by forcibly wresting the  
property from the hands of the Astor  
Company.—*Portland Herald.*

TOYS AND FANCY GOODS.—J. C. Clark-  
son & Co. having made large additions  
of the above Goods to their stock, any  
one wishing to make a present would do  
well to give them a call, as they have a  
great variety of nice, neat and pretty ar-  
ticles of vertu which are useful, and at the  
same time will please the eye and adorn  
a table or mantel-shelf.

From Rock Creek.—Mr. John F.  
Allison, of Princeton, arrived at Hope  
on Saturday, having preceded his pack  
train, which reached Hope on the fol-  
lowing day. Mr. Allison speaks with  
much confidence respecting the mineral  
prospects of the Rock Creek and Sim-  
ilkamen country. There appears to be  
plenty of ground which will pay good  
wages, and a considerable number of  
miners are at work. Supplies are being  
pushed forward from the American Ter-  
ritory, and disappointed Blackfooters are  
turning their attention more in that di-  
rection.

NO VICTORIA STEAMER.—Owing to the  
non-arrival of the Alexandra last evening  
we are without any news from Victoria.  
The Alexandra did not leave for this  
place till five o'clock last evening, hav-  
ing been detained till that hour waiting  
for the arrival of a number of sheep from  
Penet Sound. She will be due here  
early this morning.

VERY FINE GOOSEBERRIES.—We have  
to acknowledge the receipt of a basket of  
gooseberries from Capt. Calder, of the  
Home Guards. They are the product of  
Mr. Calder's garden, and are the largest  
(fully the size of pigeon's eggs) and  
most luscious we have ever tasted.

THE CELEBRATION.—The Bragado  
Guards, commanded by Capt. Fleming,  
celebrated the laying of the Atlantic  
cable on Monday night, by the firing of  
artillery and small arms. The celebra-  
tion was kept up with much spirit till a  
late hour.

RETURN OF THE LILLOOET.—The steamer  
Lillooet, Capt. Fleming, came in from  
Yale on Sunday, bringing 26 passengers  
and Dietz and Nelson's express.

LARGE SHIPMENT OF FURS.—The steamer  
Onward brought down yesterday 113  
bales of furs for the Hudson Bay Co. We  
cannot tell even the approximate worth  
of these furs, but they must be of great  
value.

A LARGE TRAIN.—The Hudson Bay  
Co.'s Colville pack train, consisting of  
136 horses, arrived at Hope on Sunday  
week. The train was freighted and  
started back on Wednesday.

EXPORTS.—Last week the Alexandra  
took away 180 bbls. and the Nor Wester  
129 bbls. of salmon, all of this season's  
catch.

CUSTOMS RECEIPTS for week ending Sat-  
urday, July 25th.—Duties \$1,538-66; harbor  
dues \$45-62; head money \$27-06; tonnage  
dues \$219-75; inland navigation licenses \$50-  
00. Total \$2,880-43. Number of pas-  
sengers 27.

## TELEGRAPHIC.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

## EUROPEAN.

CHICAGO, July 23.—Latest phase of  
European situation, as described by the  
English and German press:

The London *Times* remarks there is  
too much reason to fear hostilities will  
be renewed on both theatres of war, and  
says if so, Austria, unless sheltered by  
France, may soon be compelled to hear  
terms of peace proclaimed by Prussia in  
her own capital.

The *Times* further says it is difficult to  
believe that either Italy or Prussia will  
ultimately reject pacific overtures of  
Napoleon, especially if he should be  
supported by England.

The London News compares the cession  
of Venetia to France as the act of a  
debtor who makes away with property  
when on the eve of bankruptcy. There  
is a want of frankness about Austria  
fitted to exasperate Prussia.

The Post thinks the least Prussia can  
ask, with Vienna open to her march, is  
the acknowledgment of her absolute  
possession of Germany, including Saxony,  
Hanover and Bohemia. Prussia may  
choose to dictate peace at Vienna rather  
than submit to Congress.

## ADDITIONAL FOREIGN NEWS.

The *Abend Zeitung* says, the rejection  
of Napoleon's terms is not less important  
than the battle of Sedan. Even Bavaria,  
Swabia and Baden would prefer united  
and powerful Italy, under Prussia, to  
Germany disunited and torn, and offer-  
ing a field of strife for neighboring na-  
tions, as Napoleon wishes it to be. A  
German republic is not now to be thought  
of; but Denmark and the King having  
been conquered without being compelled  
to concede anything to the people, we  
believe that German enthusiasm will now  
become so strong as to be feared by  
other nations. Italy will heartily be left  
out of the game, unless indeed she  
may prefer to conquer Venetia rather  
than trade for it.

NEW YORK, July 24.—The *Moscow  
Gazette* of July 13th contains the fol-  
lowing highly important announcement:  
Russia does not desire any change in the  
present state of things. If Austria and  
Prussia will consider themselves tools of  
the French, Russia, can no longer de-  
pend on them as heretofore—Venetia  
without Rome would constitute no pro-

gress for Italy. The submission of  
Austria to France is not advantageous,  
but dangerous to the European equi-  
librium. The supremacy of Prussia in  
Northern Germany narrows that of  
Russia in the balance. Russia wishes  
for peace, but does not sanction Prussia's  
efforts to obtain supreme power. Eng-  
land's interest may make her seek al-  
liance with France and Austria on the  
Eastern question; but the dictatorship  
of France in Italy and Germany cannot  
meet her support.

A Linburgh dispatch of the 13th says  
the Russian soldiers on furlough have  
been called in. Every day military trains  
start from Warsaw to the frontier of  
Silesia and Galicia.

A Florence telegram of the 13th says  
Prussia informed Italy that an armistice  
on the basis of the cession of Venetia is  
admissible—Italy in reply announced  
the resolution to continue war without  
relaxation.

A Florence paper publishes the condi-  
tions for an armistice stipulated by Prus-  
sia and Italy. The former power demands  
the exclusion of Austria from the Ger-  
manic Confederation. The same journal  
adds, this was admitted by France, who  
undertook to obtain from the Vienna  
Cabinet the evacuation by Austria of the  
Austrian provinces occupied by Prussia  
during the armistice.

The conditions on the part of Italy  
were the cession of Venetia and the Aus-  
trian portion of Lombardy direct from Aus-  
tria to Italy without compensation, and  
an agreement that Austria should not  
raise the Roman question during negotia-  
tions for peace. It appears that these  
conditions have been found inadmissible  
at Vienna, and that Austria is resolved  
to try the fortunes of war.

Venice dispatches say that Austrian  
forces in Venetia are being withdrawn  
from before the Italian forces, but fortres-  
ses are strongly garrisoned for the  
defence and support of the army.

La France says the attack of the Ital-  
ian upon Venetia renders France Napo-  
leon's mission futile, and it has been aban-  
doned.

France is actively arming. The iron-  
clads are to be sent to Venice. Prussia  
has occupied Prague with a garrison of  
8,000 troops. Austria is making con-  
cessions to Hungary. She announces  
that the conscription is suspended, and  
calls on Hungarians to volunteer.

FARTHER POINT, July 23.—The Hi-  
bernia brings dates to noon, 10th.

It is now declared in diplomatic circles  
at St. Petersburg that Russia will not  
abandon neutrality, or allow intervention.  
The *Moscow Gazette* expressed sym-  
pathy with the Italians, and says Italy  
must have Rome.

The Prussian head-quarters were at  
Bremen, with second column in Igien,  
marching rapidly on Vienna. The  
Prussians overtook the Federal army  
in battle at Schellenburg in  
Bavaria on the 14th, and were marching  
on Frankfurt. The Federal Diet had  
removed to Augustenburg.

Gen. Cialdini had occupied Vice-Nica,  
cutting off Austrian troops in Venetia  
from succor unless he be dislodged.

The London *Times* believes the dis-  
comagement of the Austrian army by  
repeated losses in Bohemia will deter  
the Emperor from a final encounter so  
close to his capital, and trusts that be-  
fore the Prussians shall be ready for the  
onset an interview between the two  
monarchs will take place, which might  
better have been held after the disaster  
of Donau-Graetz.

The *Times* of the 26th, says whatever  
forces the Austrian Government may  
have succeeded in gathering around  
Vienna, it is still doubtful whether it  
will find itself competent to the task of  
withstanding the victorious Prussians,  
who, according to all calculations, should  
assemble before Vienna to-morrow or  
the day after.

If it were needed to render the Aus-  
trian position hopeless it was furnished  
by the tidings of the irreparable disaster  
at Schellenburg, which must have reach-  
ed Vienna, preceded by a deputation  
from Vienna to Munich, imploring the  
Emperor's pleasure in regard to the de-  
fence of that city. The Emperor at once  
removed apprehension by answering that  
Vienna should be treated as an open city,  
and added that he would limit operations  
to the defence of the line of the Danube,  
which might bring the Prussian attack  
on Flodoss village, three miles from the  
gates of Vienna, where the Austrians  
have an entrenched camp. Should the  
Prussians, however, resolve to attack  
Vienna, they would certainly attempt to  
cross the river in several places, and in  
case of success the open city would un-  
avoidably fall into their hands.

## EASTERN STATES.

WASHINGTON, July 23.—In the Senate  
Clark, of Ohio, offered a resolution, re-  
questing the President to urge the  
Canadian and British authorities to re-  
lease Fenian prisoners, and that the  
President cause the discharge of all  
Fenians under prosecution in United  
States Courts; yeas 102, nays 2.

European dispatches received at the  
State Department, do not confirm hopes  
of peace, but indicate that France will  
have to assume the character of a bel-  
ligerent.

NEW YORK, July 23.—The Great  
Eastern may arrive at Heart's Content  
on Friday, when the Associated Press  
will receive by telegraph early details  
of the progress of laying the cable.  
Chicago, July 23.—The following re-  
port has been received here of the suc-

cessful laying of the Atlantic cable, with  
news dated London, July 27th, stating  
that a treaty of peace had been signed  
between Austria and Prussia, on terms  
proposed by the latter.

NEW YORK, July 28.

To ANSON STAGER,  
The cable is successfully laid, and we  
have received a dispatch.

(Signed) D. M. BRADFORD.

HEART'S CONTENT, N. F., July 28.

We arrived here at nine o'clock this  
morning, all well, thank God. The cable  
has been laid, and is in perfect working  
order.

(Signed) CYRUS W. FIELD.

HEART'S CONTENT, N. F., July 28.

We are in telegraphic communication  
with Ireland. The cable is in perfect  
order.

(Signed) CYRUS W. FIELD.

## CALIFORNIA.

SAN FRANCISCO, July 27.—The Eastern  
line is out of order beyond Laramie.  
The Sutter Street Railroad company  
have broken ground at the junction of  
Sansome and Sutter streets, preparatory  
to extending their road through Battery  
to Vallejo street.

The arrival of the Siam ship Silas  
Greenman, has presented some difficulties  
at the Custom House, which have not  
yet been settled. The officials think  
they must add 10 per cent. additional  
duties on cargo by way of discrimination  
because there is no reciprocity treaty  
between this country and Siam. Con-  
signees of the ship will telegraph to  
Washington authorities to find out  
whether such discrimination is just and  
equitable.

Arrived—Argentine bark Jose, 44  
days from Caran Island; British bark  
Speedwell, from Cork; steamer Pacific,  
San Pedro.

SAN FRANCISCO, July 29.—The Eastern  
line is again down, east of Laramie.

The following official dispatch was  
sent from the agent of the Overland Tele-  
graph at Salt Lake: "A second wire is  
being put up on the old poles from Oma-  
ha to Julesburg, and the old poles have  
been used for the rest of the wire, which  
is now up as far as Cottonwood, one hun-  
dred miles east of Julesburg. It will  
connect with the Julesburg and Denver  
line. The new line will be put up from  
Denver to Salt Lake, making the second  
wire from here to Omaha. Nearly all  
the poles are delivered from Salt Lake to  
Denver. Two working parties are set-  
ting poles east from Salt Lake; another  
will start from Denver soon to meet  
them. We shall have almost united  
communication with New York by the  
last of September, and hope to complete  
the line to Virginia, Montana, 185 miles,  
where a good business awaits it."

The steamer Constitution, for Panama  
to-morrow, carries the smallest passenger  
list of any steamer for three years. On  
the other hand steamers coming from the  
East bring full lists. The tide is setting  
strong in California's favor.

The schooner Milton Badger, which  
sailed for Humboldt on the 22d, when a  
short distance this side of Mendocino,  
shipped a heavy sea which carried away  
her chain-box, killed one man, and broke  
the legs of two others.

The ship Panama arrived yesterday  
from New York, being her sixth voyage,  
each inside of 120 days; her shortest  
was 101 days.

The receipts of treasure from the in-  
terior is fair, and for the month will ex-  
ceed four millions. No change in rates  
of exchange and bullion for Monday's  
steamer except advance in gold; bars  
now held at 170d/170s. The demand  
for money is good, perhaps little pressing  
in some quarters, but bankers rates are  
unchanged.

Sailed, 28th—steamer California, Vic-  
toria.

SAN FRANCISCO, July 30.—Although as  
yet no public demonstration has taken  
place over the completion of the Atlantic  
cable, everybody congratulates his neigh-  
bor, and a general effulgence is almost  
inevitable. The following dispatch was  
received this morning:

HEART'S CONTENT, July 28.

HON. STEPHEN J. FIELD.

I arrived this morning in perfect health.  
The cable has been successfully laid  
across the Atlantic Ocean.

(Signed) CYRUS W. FIELD.

The successful laying of the cable and  
the important European dispatches re-  
ceived by it are absorbing topics of con-  
versation in business circles.

Gold dispatches from New York are  
to the 24th, 150; sterling exchange was  
dull and nominal, with no demand except  
at sight.

Arrived—brig T. W. Lucas, 9 days  
from Usahady; bark Alice Risdon, 207  
days from London via Falmouth; bark  
Milan, 10 days from Tekelet.

Sailed—brig Orient, Puget Sound;  
bark Hiramsville, Puget Sound.

SAN FRANCISCO, July 31.—The Eastern  
line is working but no later news re-  
ceived to-day.

The steamer Oriflamme, which left  
Portland on the evening of the 29th, ar-  
rived this forenoon.

Private telegrams dated New York  
26th and 28th, announce the passage by  
both Houses of the Original Tariff Bill  
and its signature by the President. It  
goes into effect to-morrow.

A fire occurred this morning in a  
building on corner Montgomery and Jack-  
son streets. Loss probably \$50,000.

Dispatches have been received from  
New York to 28th; sterling exchange

dull at 108 1/4 108 1/2.

Sailed—ship Gov. Morton, New York;  
ship Horatio Harris, Colbia.

## SANDWICH ISLANDS.

SAN FRANCISCO, July 28.—By the  
Black Monitor, 23 days from Honolulu,  
we have Hawaiian dates to July 31.

United States Ministers Burlingame  
and Van Valkenberg were still at Hono-  
lulu, and expected to leave July 4th, on  
bark Swallow. They had been tendered  
a public dinner by Americans; but owing  
to the fact that the Court was in mourn-  
ing they declined. Incendiarism prevails  
to an alarming extent at Molokai. The  
summit crater of Maunaloa was still  
active. The sky was illuminated nearly  
every night. The old crater of Kalanea  
is also active.

## CARIBOO.

ASSIZES—BEFORE THE HON. MR. JUSTICE  
REGINIE.

CARIBOO, July 26.—An adjourned sit-  
ting of the Assizes for the district of  
Cariboo was opened at the Court Room,  
Richfield, on Wednesday, the 25th inst.,  
by his hon. M. B. Regie, assisted by  
W. G. Cox, Esq. The grand panel was  
called. His Lordship addressed the  
jury on their duties, and said it was a  
matter for congratulation that there was  
no cases for them to present.

## A RICH QUARTZ LEAD.

July 30.—We understand that Mr.  
McWorthy, superintendent of the Cherry  
Creek Silver Mining Co., who arrived  
here lately, paid a visit on Friday last  
to the Home Stake Co.'s ledge, situated on  
the mountain that divides Williams from  
Grouse Creek, along with several mem-  
bers of the company. A blast was put  
into the reef, about four feet from the  
surface, detaching some 300 pounds of  
rock, scarcely a piece of which did not  
contain more or less gold which could  
be seen with the naked eye. Mr. Mc-  
Worthy expressed himself satisfied with  
the croppings of the ledge, and we be-  
lieve has made a proposition to the  
company that if they will sink twenty  
feet down in the ledge and transmit  
half a ton of the rock to San Francisco,  
he will have it assayed, and if satisfac-  
tory, will bring up a five stamp mill to  
work the ledge.

## WILLIAMS CREEK.

The Bradley Co. still yields on an aver-  
age from 25 to 30 dollars a day to the  
land. The Hyack Co. washed up last  
week from a small portion of their  
ground sluice 100 ounces. The Toun-  
ton Co. washed up on Thursday 41  
ounces out of the ground sluice; one  
piece weighed eight ounces, and contain-  
ed but little dross. It was found on a  
level 200 feet higher than the bed of the  
creek, a circumstance that proves beyond  
a doubt the existence of good hill dig-  
gings. The Lillooet Co. on Wednes-  
day, washed up out of a few buckets of  
dirt 150 dollars. The California Tun-  
nel Co. washed up for the week 68  
ounces. It is reported that the Aurora  
Co. have struck another back channel  
which prospects well. The Cameron  
Co. had 86 ounces for the week. The  
Forest Rose Co. washed up 50 ounces  
for the week. The Prairie Flower Co.  
cleaned up for the week 137 ounces. Several  
claims below Cameron town were  
flooded by water during the past week  
but will resume work again this week.

## GROUSE CREEK.

The Heron Co. washed up for the week  
100 ounces, being the result of the work  
of one man picking. 22 dollars to the  
man was obtained out of the gravel last  
Saturday. The Short Bend Co. are  
taking out good pay. The Discovery  
Co. have struck pay in both their tunnels.  
The New d. Wel Co. took out for  
the week 25 dollars a day to the land. The  
Caroline Co. washed up for four  
days work 15 ounces.

## LOWEY CREEK.

The Last Chance Co. are taking out  
good pay. The Red Rock Flume Co.  
did well last week. They took out one  
piece 37 1/2 ounces, value about \$410. The  
companies above are busy ground-  
sluicing and sluicing.

## STOTT'S CREEK.

The claims on this gulch have not  
yielded so well during the past week as  
previously. High-Low-Jack Co. con-  
tinue to average from \$14 to \$16 a day  
to the hand. The Jenkins Co. washed  
up for the past two weeks \$1270. The  
Emery Co., in consequence of their tun-  
nel having caved, have started to open  
their diggings by ground-slauicing and  
laying a flume.

## CONKLIN'S GULCH.

The claims on this famous gulch have  
yielded little last week, although hopes  
are entertained by the Reid and New  
Zealand Co.'s of taking out good pay dur-  
ing the present week.

## A MINING BOARD.

In response to a petition of the miners  
of Cariboo an election of twelve members  
to constitute a Mining Board will take  
place on Thursday, 31st July. The fol-  
lowing is a list of the candidates nomi-  
nated for election to serve as a Mining  
Board: Independent Candidates—Jno.  
MacLaren, Geo. Duff, J. S. Thompson,  
P. McLaren, John Bruce, Henry Colter,  
James Anderson, Angus Hardie, S. A.  
Anderson, and Hugh Gilmore. Miners'  
Candidates—Capt. Bell, Henry Cogler,  
Geo. Shaw, Capt. Perry, Henry Gribble,  
Dr. Foster, James Anderson, Samuel  
Pierce, J. H. Wright, James Williams,  
Robt. Munroe, and Robt. Brown.

## CANYON CREEK.

Great confidence continues to be felt  
at Quesnelmouth respecting the richness  
of the diggings found on this creek.  
Two boats left last Friday morning,  
containing twelve or fifteen men,  
some of whom came from below. A  
pack train with provisions had also  
started for the mines, a subscription  
having been raised to defray the expense  
of cutting a trail. During the past week  
left Williams Creek for the purpose of  
visiting these mines; among this number  
were Duncan, McMartin, W. Stewart,  
John Ferrin, Geo. Keuny and Henry  
Cline.

**LUMBER MILLS.**

S. P. MOORE & CO., PROPRIETORS,

NEW WESTMINSTER.

AGENTS IN VICTORIA:

**PICKETT & CO., - Wharf-street.**

THESE MILLS are prepared to furnish cargoes of FINE SPRUCE and CEDAR LUMBER, Tongued and Grooved Flooring, Spars, Piles, Shingles, Laths and Pickets at the shortest notice.

The access to the Mills is up the Gulf of Georgia to English Bay; thence up the Inlet. The entrance to the Bay is safe in all weather. The Inlet is perfectly land-locked, with plenty of water at all times for the largest class vessels.

Vessels loading at these Mills will have every facility for loading. The quality of Lumber is superior to any on the Pacific Coast, and can be furnished to any length up to 80 feet. There is a deputy Collector at the Mills to enter and clear vessels.

A Lumber Yard has been opened on Front Street, New Westminster, where a complete assortment of choice lumber will be found. For further particulars apply to Mr. W. B. Wilson, Columbia Street. ap4tc

**THE GRAND PROMOTERS OF**

**HEALTH.**

**HOLLOWAY'S PILLS.**

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these purifying Pills, which through the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance, and restore the normal and natural power to every organ without inconvenience, pain, or any other drawback.

**Derangement of the Bowels, Liver and Stomach Complaint.**

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful, as to astonish everyone. Its pre-eminence as a remedy for bilious and liver complaints, and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's Pills are so permanent and so powerful, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased.

**Determination of Blood to the Head.**

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these purifying Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertigo, dizziness of sight, and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

**The Female's Best Friend.**

For all debilitating disorders peculiar to the sex and in every contingency during the life of woman, youth, full of age, married or single, this mild but speedily remedial is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

**Scrofula and all Skin Diseases.**

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the pores of the skin, the Ointment passes through the system, saturates the soil or as it penetrates most. The whole physical machinery is thus rendered healthy, regular and vigorous.

**Coughs, Colds and Asthmas.**

No medicine will cure coughs of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthma has appeared, these Pills may be relied on as a certain and never-failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

**Indigestion—Bilious Headache.**

These complaints may sometimes be considered trifling but it should be borne in mind that, by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach, take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvements, though it may be gradual, will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Acute, Female Irregular, Scrofula, or King's Evil, Bilious Com., Fevers of all Sorts, Throats, Skin, Blotches on the Face, Stomach, Gout, Head-ache, Indigestion, Rheumatism, Inflammation, Ulcers, Constipation of the Bowels, Liver Complaints, Consumption, Lumbago, Debility, Dropsy, Erysipelas, Retention of Urine, &c., &c.

Sold at the establishment of PROFESSOR HOLLOWAY, 24, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 12s., 2s. 6d., 4s. 6d., 11s. 2s., and 3s. each Box.

\*There is a considerable saving by taking the larger size.

\*Directions for the guidance of patients in every disorder are affixed to each box.
